HACKATHON

AgTECH
EDITION

IN PARTNERSHIP WITH **syngenta**

How the Week Runs

Monday, Sep 28 – Friday, Oct 2

One full build week, fully remote.

Use Cases will be revealed in a few minutes.

- Each team chooses their own use case
- There's no need to formally submit or communicate their choice.

Demo Day, Friday Oct 2

- 10:00 AM ET – a shorter slot for teams outside the usual time zone - 4 teams only.
- 5:00 PM ET – the main session.

The winner announcement will take place on Monday (10/5) - time slot TBC

How You'll Be Judged

Core score

- **Business Value:** does it solve Syngenta's actual problem, on real or realistic data, with an actionable output?
- **Technical:** runs end to end live, right technique for the problem, checked against a baseline, repo handover-ready.
- **GenDD / Agentic Dev:** AI used across the lifecycle, not just for coding.
- **Demo:** live over slides, clear problem-to-decision story.

Demo Day

- **7 mins** presentation
- **5 mins** judges Q&A
- **12 mins** total per team

How will teams submit their work?

- You **don't need** to send anything in advance.
- **Right after your demo, submit:** your presentation + a one-pager + the repo link.

*The top choice of
HatchWorks AI's CEO*

Use Cases

IN PARTNERSHIP WITH **syngenta**

SEPTEMBER 28 -TO- OCTOBER 2

[HatchWorksAI]

HACKATHON

AgTECH
EDITION

Use Cases

#1

Plant Capacity Utilization

Sharpen plant throughput and scheduling using real conditioning and packaging data.

#2

Market Intelligence & Demand Capture

Turn market-sizing and demand data into sharper commercial forecasting.

#3

Commercial Data Integrity

Build trust in customer records across Syngenta's commercial systems.

#4

R&D Data Source Unification

Unify fragmented trial, lab, and germplasm data sources for R&D teams.

Quick Q&A

You'll receive the following by email:

- This deck + kickoff recording (as soon as it's available)
- Use Cases documentation + supporting materials
- Participant Guide

During the Week:

- A communication regarding the selection of the Demo Day time
